

AMENDMENTS TO THE CLAIMS:

Claims 1-8 (canceled)

Claim 9 (new): A method of indicating a user's name on a blood-sampling needle pen comprising steps of:

- (a) providing a see-through window on a housing of said blood-sampling needle;
- (b) forming a circular compartment in an interior of said housing, said housing having a first end and a second end;
- (c) inserting a curled note indicating a user's name, date and relevant data into said circular compartment;
- (d) providing a rear cap which is engageable with said first end of said housing;
- (e) providing a front cap which is slidably engaged with said second end of said housing;
- (f) providing a spring-loaded needle holder within said front cap, said spring-loaded needle holder being engaged with a center of said second end of said housing;
- (g) forming a through hole at a distal end of said front cap;
- (h) mounting a needle in said spring-loaded needle holder, said needle being aligned with said through hole of front cap; and
- (i) providing a dust cover for said front cap.

Claim 10 (new): The method of indicating a user's name on a blood-sampling needle pen as claimed in claim 9, wherein said housing is made of transparent materials.

Claim 11 (new): The method of indicating a user's name on a blood-sampling needle pen as claimed in claim 9, wherein said housing has a plurality of locking flakes slidably engageable with grooves of said front cap.
